Dated: May 24, 1995.

Stephen F. Sundlof,

Director, Center for Veterinary Medicine.

[FR Doc. 95-13637 Filed 6-2-95; 8:45 am]

BILLING CODE 4160-01-F

21 CFR Part 558**New Animal Drugs for Use in Animal Feeds; Nicarbazin and Bacitracin Methylene Disalicylate****AGENCY:** Food and Drug Administration, HHS.**ACTION:** Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to codify a previously approved new animal drug application (NADA) held by Merck Research Laboratories, Division of Merck & Co., Inc. The NADA provides for use of nicarbazin and bacitracin methylene disalicylate in Type C broiler feeds for prevention of certain forms of coccidiosis and for increased rate of weight gain and improved feed efficiency.

EFFECTIVE DATE: June 5, 1995.**FOR FURTHER INFORMATION CONTACT:**

Dianne T. McRae, Center for Veterinary Medicine (HFV-102), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301-594-1623.

SUPPLEMENTARY INFORMATION: Merck Research Laboratories, Division of Merck & Co., Inc., P.O. Box 2000, Rahway, NJ 07065, is sponsor of NADA 98-378 which provides for the use of approved nicarbazin and bacitracin methylene disalicylate Type A medicated articles to make Type C medicated broiler feeds containing

113.5 grams per ton (g/t) nicarbazin with 30 g/t bacitracin methylene disalicylate. The NADA was approved by letter of March 15, 1955, for prevention of certain forms of coccidiosis and for increased rate of weight gain and improved feed efficiency. This document amends the regulations in 21 CFR 558.76(d) and in the table in 21 CFR 558.366(c) to reflect the approval.

Also, the table in § 558.366(c) contains two entries in the first column for "113.5 (0.0125 pct)." The second entry in the first column is unnecessary, and is being removed at this time. In addition, the entry for "113.5 (0.0125)" contains an outdated footnote to the approval for use of 113.5 g/t nicarbazin. Because the National Academy of Sciences/National Research Council (NAS/NRC) status was changed by enactment of the Generic Animal Drug and Patent Term Restoration Act of 1988, the footnote is hereby removed.

NADA 98-378 provides for use of nicarbazin and bacitracin methylene disalicylate Type A medicated articles to make Type C medicated feeds. Nicarbazin is a Category II drug which, as provided in 21 CFR 558.4, requires an approved Form FDA 1900 for making Type C medicated feeds. Therefore, use of nicarbazin Type A medicated articles in making Type C medicated feeds as in this NADA requires an approved Form FDA 1900.

Because this NADA was approved prior to July 1, 1975, the freedom of information (FOI) summary specified in 21 CFR part 20 and 21 CFR 514.11(e)(2)(ii) is not required.

The agency has determined under 21 CFR 25.24(d)(1)(i) that this action is of a type that does not individually or cumulatively have a significant effect on

the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR part 558 continues to read as follows:

Authority: Secs. 512, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b, 371).

2. Section 558.76 is amended by adding paragraph (d)(3)(v) to read as follows:

§ 558.76 Bacitracin methylene disalicylate.

* * * * *

(d) * * *

(3) * * *

(v) Nicarbazin as in § 558.366.

* * * * *

3. Section 558.366 is amended in the table in paragraph (c) by removing footnote "1" for the entry "113.5 (0.0125 pct)," by removing the second entry "113.5 (0.0125 pct)," and by adding a new item before the entry for "Lincomycin 2 (0.00044 pct)," to read as follows:

§ 558.366 Nicarbazin.

40 CFR Part 52

[TX-10-1-7020; FRL-5214-8]

Approval and Promulgation of Air Quality Implementation Plans; Texas; Revision to the State Implementation Plan (SIP) Addressing Visible Emissions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: The EPA published without prior proposal a **Federal Register** (FR) action approving a revision to the Texas SIP addressing visible emissions. The EPA's direct final approval was published on April 3, 1995 (60 FR 16806).

The EPA subsequently received adverse comments on the action. Accordingly, the EPA is withdrawing its direct final approval. All public comments received will be addressed in a subsequent final rule.

EFFECTIVE DATE: This withdrawal will be effective on June 2, 1995.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the addresses listed below. The interested persons wanting to examine these documents should make an appointment at least twenty-four hours before the visiting day.

U.S. Environmental Protection Agency, Region 6, Air Programs Branch (6T-A), 1445 Ross Avenue, suite 700, Dallas, Texas 75202-2733.

Texas Natural Resource Conservation Commission, P.O. Box 13087, Austin, Texas 78711-3087.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Sather, Planning Section (6T-AP), Air Programs Branch (6T-A), USEPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, telephone (214) 665-7258.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur dioxide, Volatile organic compounds.

Authority: 42 U.S.C. 7401-7671q.

Therefore, the final rule appearing at 60 FR 16806, April 3, 1995, which was to become effective June 2, 1995, is withdrawn.

Dated: May 22, 1995.

A. Stanley Meiburg,

Acting Regional Administrator.

RIN 2060-AC31

National Emission Standards for Hazardous Air Pollutants: Halogenated Solvent Cleaning; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Corrections to final regulation.

SUMMARY: This action corrects errors and clarifies regulatory text in the final rule published on December 2, 1994 at 59 FR 61801.

EFFECTIVE DATE: These corrections become effective June 5, 1995.

FOR FURTHER INFORMATION CONTACT:

Paul Almodovar, Coatings and Consumer Products Group, Emission Standards Division (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone number (919) 541-0283.

SUPPLEMENTARY INFORMATION: On December 2, 1994 (59 FR 61801), the Environmental Protection Agency (EPA) promulgated in the **Federal Register** national emission standards for hazardous air pollutants for halogenated solvent cleaning. These standards were promulgated as subpart T in 40 CFR part 63. This document contains corrections to editorial and cross-referencing errors in the final standards. In addition, there are corrections to clarify the applicability of the final rule, and to clarify several definitions.

Paragraph (a) of § 63.460 is revised to reflect the intent of the final rule by clarifying that wipe cleaning activities, such as cleaning using a rag containing halogenated solvent or a spray cleaner containing halogenated solvent are not covered under the scope of this regulation.

Paragraph (d) of § 63.460 and the definition of an existing source under § 63.461 are being revised to clarify that any machine, the construction or reconstruction of which was commenced on or before November 29, 1993, that did not meet the definition of

a solvent cleaning machine on December 2, 1994, because it did not, on that date, use halogenated hazardous air pollutant solvent liquid or vapor covered under this subpart to remove soils, becomes an existing source when it commences to use such liquid or vapor. The Agency intended machines that use halogenated hazardous air pollutants solvent liquid or vapor covered under this subpart to be subject to the regulation regardless of when they commenced such use. This correction clarifies an oversight in the drafting of the final rule. In addition, an existing solvent cleaning machine moved within a contiguous facility or to another facility under the same ownership continues to be regulated as an existing machine.

The definition of a batch cleaning machine under § 63.461 is being revised to clarify that cross-rod degreasers are considered batch cleaning machines. A definition of a cross-rod solvent cleaning machine is being added to the final rule.

The definition of a solvent cleaning machine under § 63.461 is being revised to clarify that small buckets, pails, and beakers with capacities of 7.6 liters (2 gallons) or less are not considered solvent cleaning machines for the purpose of this subpart. The Agency did not intend to regulate these small pieces of equipment not specifically designed to carry out cleaning or drying operations using one of the covered halogenated solvents. The size limit is included to ensure that larger vessels not specifically designed to carry out cleaning or drying operations remain subject to this final rule.

Paragraph (e)(2)(i) of § 63.463 is being revised to correct the proper units of measurement for the chilled air blanket temperature that the freeboard refrigeration device shall at least maintain. The chilled air blanket temperature shall be measured in °F, instead of °F or °C.

Paragraph (a)(4) of § 63.468 is being revised to correct an editorial error in order to clarify the intent of the provisions.

Paragraph (j) of § 63.468 is being revised to correct language on the part 70 permitting requirements for area source batch vapor and in-line solvent cleaning machines to clarify the intent of the provisions.

The headings for appendix B and appendix C are being revised for editorial errors in order to clarify the intent of the provisions.
